A passionate developer who loves to explore various technical fields and a keen interest in Web Development.

SKILLS

- HTML, CSS
- C
- Basic After Effects
- C++
- 3D Modelling & 3d Animation
- Blender 3D
- Basic Video Editing

PROJECTS / EXPERIENCES

C/C++

I have basic understanding of C and C++, and I have made basic projects using C in Semester I. One of the project was about the program which takes input from multiple choice questions and returns the score of the user, made in C.

3D Modelling and 3D animations (Blender)

I have my personal projects uploaded on Instagram, which includes 3D modelling, 3D animation and also Product Designing and Animations.

Video Editing (Da Vinci Resolve)

I have a basic understanding of video editing in Da Vinci Resolve.

Logo Animations (After Effects)

I have personal level experience of Logo Animations in Adobe After Effects.

(Check out all the projects on my social media: - https://www.instagram.com/cyphr_exe/)
